Re: Vice President Facilities

Dear Hiring Manager,

I am applying for the Vice President Facilities position with Viejas Casino & Resort. I understand this role carries significant responsibility for a 24/7 resort and casino property, including maintenance operations, construction support, trade coordination, safety, documentation, staff leadership, and fast response to issues affecting the guest and team member experience.

My background is not limited to one trade or one type of facility. I bring more than 20 years of hands-on facilities, maintenance, equipment, electrical, fabrication, construction, fleet, sanitation, and crew-leadership experience. I have worked with 480V three-phase industrial electrical systems, motor controls, conduit, circuit tracing, welding and fabrication, hydraulic systems, heavy equipment, fleet repair, concrete and rebar support, vegetation management, sanitation operations, inspections, SDS practices, DVIRs, and preventive maintenance routines.

In my current role with East County Transitional Living Center, I serve in both campus leadership and facilities-related field operations. I help maintain safety and accountability across a large residential campus, respond to operational issues, document incidents, coordinate with staff, conduct walkthroughs, and lead crews performing exterior property, vegetation-management, and defensible-space work. That experience has strengthened my ability to keep operations moving while managing people, safety, expectations, equipment, and documentation at the same time.

I also recognize that this position may be a step up in formal title and property scale compared with my recent roles. What I offer in return is a strong trade foundation, practical judgment, field credibility, crew leadership, institutional operations experience, safety discipline, and the willingness to learn Viejas systems, standards, and reporting expectations quickly. I am comfortable being accountable, working variable shifts, supporting 24/7 operations, and maintaining professional standards in environments where guests, staff, safety, and operational continuity all matter.

I would welcome the opportunity to discuss how my hands-on facilities background, leadership experience, and maintenance-trades knowledge can support Viejas Casino & Resort's facilities operation and service culture.

Respectfully,

Merrill Jewkes
