MERRILL JEWKES

El Cajon, CA 92021 | (323) 351-1921 | msjewkes2.0@gmail.com

FACILITIES OPERATIONS & MAINTENANCE LEADERSHIP

Facilities operations and maintenance leader with 20+ years of experience across institutional campus operations, industrial electrical maintenance, welding and fabrication, heavy equipment operation, fleet repair, construction support, vegetation management, sanitation leadership, crew supervision, safety briefings, inspections, documentation, and high-accountability residential environments. Brings practical trade knowledge and front-line leadership for property maintenance, equipment readiness, hazard control, staff coordination, vendor-aware work, and 24/7 operational coverage needs.

CORE QUALIFICATIONS

Facilities Operations Campus walkthroughs; facility issue identification; preventive maintenance routines; sanitation standards; construction support; property safety oversight; equipment readiness.	**Trades & Building Systems** 480V three-phase systems; motor controls; conduit; circuit tracing; schematics; mechanical repair; welding; fabrication; hydraulics; DC systems; concrete; rebar.
Leadership & Accountability Crew direction; task assignment; shift continuity; rule enforcement; conflict de-escalation; incident documentation; training support; performance accountability.	**Safety & Documentation** OSHA tailgate briefings; SDS awareness; DVIRs; lockout/tagout-aware work; tool accountability; inspection-ready standards; hazard-free work practices.

PROFESSIONAL EXPERIENCE

Head Campus Advisor

East County Transitional Living Center (ECTLC) | El Cajon, CA | Jan 2025 - Present

- Provide front-line leadership, safety oversight, and operational accountability across a multi-program residential campus serving men, women, and families.
- Maintain orderly daily operations in a high-contact environment requiring judgment, consistency, professionalism, confidentiality, and shift-to-shift follow-through.
- Coordinate with staff leadership, communicate operational concerns, document incidents and observations, and support safe campus coverage.
- Respond to behavioral issues, safety concerns, and escalated situations using calm direction, conflict management, and de-escalation skills.
- Conduct walkthroughs to identify facility concerns, safety issues, resident needs, and operational risks requiring follow-up.

Facilities & Sawyer Lead

East County Transitional Living Center (ECTLC) | El Cajon, CA | Jan 2025 - Present

- Lead vegetation management, defensible-space, and fuel-reduction operations using chainsaws, chippers, stump grinders, trailers, trucks, and related equipment.
- Assign crew work, sequence tasks, monitor production, and adjust field operations based on hazards, terrain, access limits, and safety conditions.
- Conduct daily OSHA-focused tailgate safety briefings and reinforce safe work practices before high-risk cutting, hauling, clearing, and cleanup work.
- Perform equipment readiness checks, pre-trip inspections, and operational reviews to reduce downtime and maintain safe working conditions.

Sanitation Engineer Lead

P.I.A. State of Oregon | Sheridan, OR | Jan 2019 - Sept 2024

- Led sanitation operations in a large, security-sensitive institutional environment requiring inspection-ready standards, controlled movement, and strict accountability.
- Coordinated cleaning assignments, restoration coverage, crew workflow, quality expectations, tool accountability, and documentation awareness.
- Maintained SDS-driven chemical handling practices and trained workers in safe use of sanitation equipment, supplies, and procedures.
- Supported remediation involving smoke, fire, water, heavy soil conditions, urgent cleanup requirements, and preventive maintenance of sanitation equipment.

Heavy Equipment Operator

Taylor Underground | Hemet, CA | Mar 2018 - Jan 2019

- Operated heavy equipment supporting underground utilities, site development, trenching, grading, cuts, fills, and field production.
- Worked safely around live utilities, buried infrastructure, field crews, surveyors, and supervisors in deadline-driven environments.
- Performed daily equipment inspections, startup and shutdown checks, and reported mechanical concerns impacting productivity or safety.

Industrial Electrician

Hickman's Egg Ranch | Arlington, AZ | Mar 2016 - Jul 2017

- Maintained and repaired 480V three-phase industrial electrical systems supporting motors, conveyors, fans, facility systems, and production uptime.
- Diagnosed electrical failures, traced circuits, read schematics, installed conduit, replaced components, and supported preventative maintenance.
- Performed lockout/tagout-aware troubleshooting and repair requiring safe, timely restoration of building and equipment systems.

Welder / Fabrication Technician

Arizona National Guard Contractor | Florence, AZ | Apr 2017 - Feb 2018

- Performed MIG, TIG, stick, and oxy-fuel welding for generator frames, structural brackets, guards, facility components, and custom repairs.
- Interpreted drawings, completed fit-up and alignment, fabricated field-ready components, and maintained workmanship standards.

Mechanic / WreckBuilder / Welder

Swift Trucking Company | Phoenix, AZ | May 2009 - Oct 2012

- Performed maintenance and structural repair on heavy-duty tractors, trailers, frames, suspension, brakes, wheel-end components, and trailer bodies.
- Installed hydraulic liftgate systems and serviced 24V / 12V DC electrical systems supporting fleet and auxiliary equipment.
- Used cranes and lifting devices to service large assemblies while maintaining DOT-aware fleet-service practices and preventive maintenance standards.

EDUCATION, CERTIFICATIONS & CREDENTIALS

- Graduate, 1-Year Christian Ministry Program: East County Transitional Living Center, Jan 2026
- High School Diploma / GED: Central Arizona College, 1998
- Certified Welder (CW): Jan 2020 | CPR, AED & First Aid Certified: Mar 2026 | Forklift Operation Certification | Valid Class C Driver's License

SELECTED EQUIPMENT, SYSTEMS & TRADE EXPOSURE

Skid steer loaders, front-end loaders, bulldozers, sheeps foot roller, chippers, stump grinders, chainsaws, trailers, trucks, cranes, 480V three-phase systems, motor controls, MCCs, relays, contactors, conduit, circuit tracing, MIG/TIG/stick/oxy-fuel welding, hydraulics, pneumatics, liftgates, 24V/12V DC systems, rebar, concrete, fleet maintenance, sanitation equipment, SDS documentation, DVIRs, and inspection-readiness practices.
